Workshop on Effective Judicial Campaign Oversight Committees

Your State: _____

Your "Worse Case Scenario"

You have spent the last two days hearing actual and hypothetical situations involving judicial campaign conducts committees – their options for response and the legal framework within which they must operate. Now we would like you to think about your own "worse case scenario." Please take a moment and write a few sentences describing the kind of situation that would be of greatest concern to you if it arose during a judicial election *and* you served on a judicial campaign conduct committee. Thanks in advance for your help.
